# To Our Customers

---

Prices herein are for first-class stock in their respective grades and are subject to change without notice.

Our stock is free from peach-borers and other pests and each shipment will be covered by a Horticultural Certificate of Inspection.

We are glad to accommodate our customers by reselling stock they may have ordered from us and find they cannot use, if we can find a market for it, but it is manifestly unfair to insist on our cancelling an order under such conditions, and in self-defense we would be obliged to refuse to do so.

If you wish us to substitute in case we are sold short of any variety ordered, please so state, as we do not substitute unless requested to do so.

Our packing season commences December 1st and continues until April or May 1st, varying with the season.

---

## GUARANTEE

We take great care in packing all orders to see that each variety is true to name, and are always ready to replace any stock that proves untrue or to refund the money paid for same. It is, however, understood between the purchaser and ourselves that in no case and at no time will we be held liable for more than the original amount paid for the goods.

All orders will be carefully packed, for which a moderate charge will be made to cover the cost of material and labor.

We will use every possible means to secure prompt delivery, but are not liable for delays in transit, and our responsibility will cease upon delivery in good order to carrier companies, and Remedy for Loss must lay between the buyer and the carrier companies, but in case of loss or delay will gladly render any aid possible.

Any claims for shortage or damage must be made immediately on receipt of stock, or they cannot be allowed.

We book all orders with the understanding that same shall be void should injury befall the stock from Flood, Fire, Frost, Drought or Other Causes Beyond our Contrl.

Kindly address all orders or correspondence to

**HEALDSBURG TRIBUNE**  
**HEALDSBURG, CALIFORNIA**

**W**E especially recommend our French and Imperial Prune trees.

We use special care in selecting buds from heavy bearing trees producing the largest size fruit and grow them on the most fertile river bottom, sandy loam soils without irrigation, which insures a strong hardy root system.

Our section is free from Peach-Borers, Thrip and other injurious insect pests and our trees will pass the most rigid inspection.

We ship trees on approval and if not entirely satisfactory, same may be returned at our expense.
